

# FULL COVERAGE WILL SAVE YOUR ASSETS

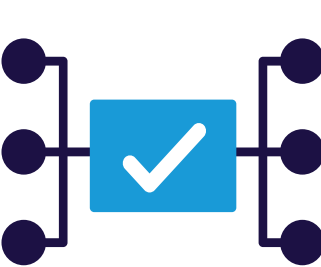

## Lytx Fleet Asset Coverage Checklist

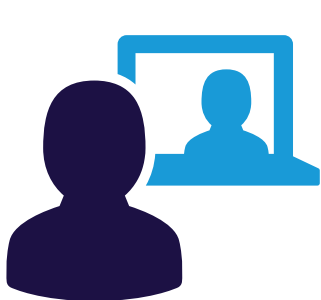

With complete telematics with video coverage of every asset, you'll better protect your drivers, vehicles, and your bottom line.

Use this checklist to review how covered your assets really are:

 **Install intelligent fleet dash cams on all assets**  
Lytx® DriveCam event recorders offer high-quality video features, including live streaming\*, continual recording, and look-back capabilities.

 **Use one solution to manage fleet safety**  
Lytx Safety Suite provides a single, comprehensive view of risk.

 **Access fleet-wide safety trends and advanced insights**  
Lytx fleet technologies help reveal patterns and actionable insights.

 **Use flexible coaching options**  
In-person, remote, and self-guided options make driver coaching workflows more accessible.

 **Reinforce safe driving behaviors**  
Machine vision and artificial intelligence (MV+AI) driver alerting† empowers drivers to self-correct in real time, lowering collision rates in real time, minimizing the need for coaching, and lowering collision rates.

 **Improve maintenance processes**  
Lytx Fleet Tracking and DVIR helps keep more of your vehicles on the job.

 **Combat false claims and exonerate drivers**  
Continually recorded video with look-back, on-demand access\* shows exactly what happened before/after an incident.

 **Strong safety checks and protocols**  
Lytx fleet video solutions enable you to see when safety policies are (or are not) being followed.

 **Simplified compliance**  
Lytx ELD & DVIR Service cut out paperwork and offers easy digital vehicle inspections.

 **Reputation protection and managed insurance costs**  
Full-fleet video telematics help safeguard your brand and keep insurance premiums low.

 **Know which assets are missing coverage**  
All revenue-generating vehicles, including manager and contractor vehicles.

### Lytx Can Help Cover Your Assets. ALL of Them.
